

ANSHUL KAHAR - FULL STACK DEVELOPER

[in LinkedIn](#) | [+91 7020004857](#) | [Portfolio](#) | [✉ anshulkahar2211@gmail.com](#) | [GitHub](#)

Skills & Frameworks

- **Frontend & Backend** - React | React Native | NextJS | Typescript | NodeJS | tRPC | GraphQL | Docker | AWS
- **Database and Testing** - Supabase | PostgreSQL | MySQL | MongoDB | Prisma | Drizzle | Cypress | Jest

Experience

BuildEnfra - Software Developer

08/2024 - Present

Hybrid- Hyderabad [\[Web Link\]](#) [\[App Link\]](#)

- Optimized the full-stack application by enhancing frontend performance through React component memoization, route and image-level lazy loading, and strategic code splitting to reduce bundle size. On the backend, improved efficiency and scalability by implementing request-level caching (Redis), database query optimization, connection pooling, and asynchronous processing in ExpressJS.
- Implemented **CI/CD pipelines using Docker** to reduce CPU usage and decrease build times, ensuring faster deployment cycles. Focused on improving system reliability through the development of automated tests using Jest and enhancing the overall speed and efficiency of the application
- Built and published **React Native app** on the app store and play store. **Build AI Chatbot** for procurement analytics, delivering actionable insights on cost and time savings.

Ortelo - Full Stack Developer

06/2024-07/2024

Remote - Bangalore - [\[Web Link\]](#)

- Developed a job platform using React.js for a dynamic, responsive user interface. Collaborated closely with designers and back-end developers to deliver a cohesive and scalable solution. Leveraged **tRPC** for seamless, **type-safe API** integration.

MavySoft - Full Stack Web Developer Intern

01/2024 - 04/2024

Remote

- Developed a marketplace platform for cryptocurrencies using **React, Redux, and Node.js**, enabling users to manually create buy and sell offers. Migrated the codebase from **JavaScript to TypeScript**, improving code maintainability and type safety.

Projects

CodeUI.ai - Generate and Preview UIs - [\[Code\]](#) [\[Preview\]](#)

- An **AI-powered** web app that instantly generates and previews user interfaces. Simply input your design requirements, and the app uses AI to create responsive UI elements.

Tech Stacks - NextJS, Typescript, PostgreSQL, Docker

Codefox.ai - Ask anything about any github repo - [\[Code\]](#)

- CodeFox AI is an intelligent code review assistant that helps developers streamline the pull request (PR) review process. Leveraging AI-powered analysis, it provides automated feedback, detects potential issues, and suggests improvements.

Tech Stacks - NextJS, Typescript, PostgreSQL, Vector Database

AI Repo - Ask anything about any github repo - [\[Code\]](#)

- An AI tool that lets you analyze any GitHub repository by simply entering its URL. Ask questions about the code, architecture, dependencies, or functionality, and get instant insights. Perfect for developers, researchers, and teams

Tech Stacks - NextJS, Typescript, PostgreSQL, Vector Database

Learnify - Effortless learning - [\[Code\]](#) [\[Preview\]](#)

- Learnify is a **nextJS LMS (Learning management system)** which is used to create, deliver, and manage online courses. Instructors can create and structure courses with learning modules and learners can access course materials, lectures, videos

Tech Stacks - NextJS, Prisma, ShadCN, TailwindCSS, Typescript, PostgreSQL, Stripe

Education

Bachelor of Engineering

Savitribai Phule Pune University

Pune, India

2022 - 2026
